MIKE NORVELL

Mike Norvell, who was named Florida State's head football coach on Dec. 8, 2019, and led the Seminoles to an undefeated regular season and the program's 16th ACC championship in 2023, enters his sixth season overseeing the FSU program in 2025.

The 2024 team produced two first-team All-Americans, including the program's first Consensus All-American since 2016, and an FWAA Freshman All-American, also FSU's first since 2016. In his career, Norvell has coached 35 NFL Draft picks, 22 All-Americans, including 14 first-team selections, five conference Players of the Year, one ACC Defensive Rookie of the Year and 114 all-conference recognitions.

Norvell earned the Dodd Trophy and Bryant Award in 2023, becoming the eighth coach and second since 2003 to win both national Coach of the Year recognitions in the same season. He also was named ACC Coach of the Year, joining the legendary Bobby Bowden as the only FSU coaches to earn the conference's top coaching honor, and the AFCA Region 1 Coach of the Year while also being named one of five finalists for the George Munger Coach of the Year Award presented by the Maxwell Football Club and one of 12 finalists for the Eddie Robinson Coach of the Year Award.

Florida State rolled through an unbeaten, 13-0 regular season that included wins over eight P5 bowl-eligible teams, including No. 14 Louisville in the ACC Championship Game, and was No. 4 in the final Associated Press poll of the regular season. It was the third 13-win season in program history, and Norvell became only the sixth different ACC coach since 2000 to lead his team to an undefeated record in conference play. His ACC Championship Game appearance marked his fourth conference championship game, which ranks fourth among head coaches active in 2025, and he also is one of only eight head coaches ever to make three conference championship game appearances in their first four years.

FSU showcased dominance in all three phases, as it was the only team in the nation that produced a stretch in which it outscored its opponent by at least 17 points in every regular-season game, with eight of those games featuring a scoring run of plus-24 or better.

The 2023 Seminoles produced a program-record 25 selections to the All-ACC team, led by ACC Player of the Year and first-team all-conference quarterback Jordan Travis. FSU's eight first-team selections were the most in the conference, and Florida State also led the ACC in second-team and third-team honorees. Keon Coleman became the first FSU player to earn three first-team all-conference honors in one season after being named first-team All-ACC at wide receiver, all-purpose player and return specialist.

Travis flourished in his final year under Norvell's guidance, developing into one of the best players in the nation and finishing fifth in the Heisman Trophy voting despite being injured in the first quarter of FSU's 11th game of the season. In only 10 full games, Travis passed for 2,756 yards and 20 touchdowns and added another 176 yards and seven touchdowns rushing for 2,932 yards of total offense and 27 total touchdowns. He completed his Florida State career holding program records for career touchdown responsibility, total offense yards, quarterback rushing yards and quarterback rushing touchdowns while also placing himself in the top-five in passing touchdowns, passing yards, wins as a starting quarterback, completions, completion percentage and rushing touchdowns.

Florida State's 2023 campaign showcased playmakers in all three phases. The Seminoles led the nation in opponent completion percentage, pass breakups and passes defended while ranking second nationally in fewest interceptions thrown, third in net punting, sixth in passing efficiency defense, sacks and third-down defense and seventh in kickoff return average. FSU led the ACC in scoring offense for the second straight year while also leading the conference in yards per completion, sacks per game, kickoff return average, fewest interceptions thrown and fewest total turnovers.

Thirty-one of Norvell's pupils have been selected in the last eight NFL Drafts, led by first-round picks Jared Verse in 2024 and Jermaine Johnson II in 2022. Norvell has coached multiple picks in seven of the last eight years. In addition to Johnson and Verse, Norvell also guided second-round picks Keon Coleman, Braden Fiske, Renardo Green, Anthony Miller and Asante Samuel, Jr., as well as third-round selections Trey Benson, Jarrian Jones, Azareye'h Thomas, Darrell Henderson, Antonio Gibson and Dylan Parham.

Norvell's offenses are averaging 34.7 points per game during his nine years as a head coach, which ranks as the fourth-highest average in the country among head coaches active each year from 2016-25. Norvell is one of only three head coaches to produce a top-7 rushing offense and top-7 passing offense since 2016. His offense has showcased 60 individual 100-yard rushing games, 43 individual 100-yard receiving games and 26 individual 300-yard passing games. In addition to his high-powered offenses, Norvell's teams have also scored 15 defensive touchdowns and 17 touchdowns on special teams.

Norvell has developed an impressive coaching tree in his first eight seasons as head coach. For the 2025 season, 54 current Division I coaches, including four head coaches and nine coordinators, have served on a Norvell staff. He has hired coaches who are now on staffs at Arizona State, Oregon, Buffalo, Memphis, Arkansas, Auburn, LSU, Miami, Michigan, Missouri, Nebraska, Ohio State, Oklahoma State, SMU and USC, among others.

Statistically, the 2022 team was among the nation's best in multiple categories in all three phases. FSU was the only team to lead its conference in both total offense and total defense in 2022. Florida State was one of two teams nationally to average at least 270 passing yards and at least 210 rushing yards per game. The Seminoles, along with Alabama and Georgia, were the only three teams to rank in the top-15 in yards per play on offense and defense. Those three teams were also the only ones ranked in the top-20 in total defense, scoring defense, total offense and scoring offense.

Florida State led the country with an average of 7.46 plays of at least 20 yards per game and ranked second nationally with an explosive play differential of +7.41. The defense was fourth in the country in passing defense, and FSU was one of six teams nationally to rank in the top-25 in kickoff return and punt return average. Florida State led the ACC in passing defense, third-down offense, yards gained per pass, yards gained per play, yards gained per rush, total offense per game, yards per completion, yards allowed per pass, rushing offense per game, yards allowed per play, total defense per game and scoring offense per game.

The Seminoles were led by Jordan Travis, who was PFF's highest-graded quarterback and the highest-graded offensive player in the ACC. Travis continued to showcase his development under Norvell, ranking first in the ACC in yards per play, yards per pass attempt, yards per completion and pass efficiency rating. He had a school-record six straight games accounting for at least three touchdowns and became the first player in program history with at least 20 passing touchdowns and seven rushing touchdowns in one season. The redshirt junior saved his best performance for last, accounting for an FSU bowl-record 468 yards of total offense in the Cheez-It Bowl victory over Oklahoma that included a career-high 418 passing yards and 50 rushing yards, making him only the fifth player nationally with at least 400 passing yards and 50 rushing yards in a bowl game since 2000.

The defense was led by first-team All-Americans Jared Verse and Jammie Robinson. Verse was the ACC's Newcomer of the Year after he dominated in his first season at Florida State following a transfer from Albany, leading the conference with an average of 0.75 sacks per game and ranking second in the ACC and 10th nationally with an average of 1.4 tackles for loss per game. Robinson, FSU's first back-to-back first-team All-ACC defender since Jalen Ramsey in 2014-15, was the Seminoles' leading tackler for the second straight season. He registered 99 stops, including a game-high 13 in the Cheez-It Bowl victory, and recorded 5.0 tackles for loss, 1.0 sack, five pass breakups, one interception and one fumble recovery.

Offensive lineman Dillan Gibbons became the first FSU player to win the prestigious Wuerffel Trophy, given to the FBS player who best combines exemplary community service with leadership achievement on and off the field. Along with the Wuerffel, Gibbons, who started all 13 games at left guard, was voted captain of the Good Works Team, named the winner of the ACC's Jim Tatum Award given to the league's top football senior scholar-athlete and was selected as a first-team All-ACC performer.

The 2021 season was highlighted by first-team All-American and ACC Defensive Player of the Year Jermaine Johnson II, who elevated his game into a first-round NFL Draft pick in his one season at Florida State. Johnson, the only athlete to win a Player of the Year award in his first season with an ACC program, and first-team All-ACC defensive back Jammie Robinson led FSU's contingent of eight all-conference recognitions for the program's most All-ACC honorees since 2016.

Florida State ended the 2021 season converting 32 consecutive red zone trips, the longest active streak in America and the second-longest streak at any point in 2021, scoring an average of 6.1 points per red zone trip during the streak. The Seminoles also grabbed at least one interception in each of the last eight games of 2021, tied for the longest streak in the country that year.

Florida State ranked second in the ACC and seventh nationally in red zone defense, allowing points on only 70.6 percent of red zone drives. The Seminoles also ranked third in the ACC with 20 total takeaways and 7.2 tackles for loss per game, while their 14 interceptions were fourth overall in the conference. The tackles-for-loss average ranked 12th nationally and was FSU's highest for a season since 2016.

In his first season at Florida State, Norvell led the youngest team in the nation as freshmen and sophomores made up 75 percent of FSU's roster and 34 players made their first appearance for the Seminoles. While navigating through a global pandemic that ended spring practice after only three sessions and impacted summer workouts and the regular season, Norvell became the only coach in ACC history to defeat a top-five team in his first season when FSU earned a 31-28 victory over No. 5 North Carolina. In the season finale, a 56-35 win over Duke, Florida State scored six rushing touchdowns, matching the program record for rushing touchdowns in an ACC game.

The Seminoles averaged 199.9 rushing yards per game, the program's highest since 2016 and 20th nationally among teams that played at least nine games in 2020, and 5.11 yards per rush, 16th in the nation among teams with at least 350 carries and FSU's most in a season since 2015. Florida State topped 400 yards of total offense in five of the last seven games, including more than 500 yards of total offense twice, and produced FSU's first game with at least 250 yards rushing and passing since 2016.

Norvell's teams are known for elite special teams play, and that was on display in his first season with the Seminoles. Florida State tied for second in the NCAA with five blocked kicks, including two blocked field goals, two blocked punts and one blocked PAT. FSU was one of only two teams in the country to block multiple field goals and multiple punts in 2020. Additionally, the Seminoles ranked 16th in the nation in net punting average.

The team posted a program-record 3.310 grade-point average in the spring 2025 semester, following a fall-record 3.095 in the fall of 2024. The overall semester GPA record bested the 3.127 earned in Norvell's first semester at FSU, setting an immediate indication of the importance Norvell places on academics in his program. Florida State has produced 73 Academic All-ACC selections under Norvell and has broken the single-season program record in three straight years, highlighted by 30 academic all-conference honorees in 2024, the fifth-highest total in the ACC. FSU's multi-year Academic Progress Rate of 990 released in May of 2025 set a program high for the third straight year, and FSU also tied its program-best single-year score of 997 for the second straight report. As another public signal, 468 players have earned a Seminole Scholar patch on their uniform as part of a program Norvell introduced to recognize academic achievement.

Norvell spent the 2016-19 seasons as the head coach at Memphis, compiling a record of 38-15, including the 2019 American Athletic Conference championship and a spot in the New Year's Six Cotton Bowl. His 71.7 winning percentage was the highest in Memphis history. Memphis was the first school to appear in three straight American Athletic Conference Championship Games, and Norvell is one of 17 head coaches in any conference to appear in three straight conference championship games. He is also one of only eight to make three conference championship game appearances in their first four years as a head coach.

Memphis was one of three FBS teams to rank in the top-15 nationally in scoring offense every year from 2016-19, along with Ohio State and Oklahoma. Memphis shined on special teams under Norvell as the Tigers were one of only two schools with at least one kickoff return touchdown each year from 2016-19, and their 11 kickoff return touchdowns over that span were the most in the nation. The 2019 team ranked second in the country in special teams efficiency by ESPN, trailing only Penn State which hired Norvell's special teams coordinator prior to the 2019 season.

The Tigers' defense wreaked havoc on opponents, forcing 99 total takeaways and averaging 6.8 tackles for loss per game. Memphis was one of only six FBS teams with multiple defensive touchdowns every year from 2016-19.

In 2019, Norvell led Memphis to a school-record 12 wins and the program's first outright conference championship since 1969. Norvell, who is the only coach in Memphis history with two 10-win seasons, produced two of the four 10-win seasons at the school and holds program records with eight wins in his first season, 18 over his first two, 26 in his first three and 38 in his first four seasons. He also holds the school record for the most wins over a three-year span with 30 victories from 2017-19 to bypass his 26 wins from 2016-18.

The 2019 Tigers produced a program-record 14 all-conference selections, including co-Special Teams Player of the Year Antonio Gibson and Rookie of the Year Kenneth Gainwell, in addition to Mortell Award winner Preston Brady as the national holder of the year. Gibson's average of 28.8 yards per kickoff return ranked sixth in the country, while Gainwell ranked ninth with 150.54 all-purpose yards per game and 12th with an average of 6.42 yards per rush. Brady White, named a finalist for the Manning Award and Johnny Unitas Award, ranked in the top-20 in FBS in passing yards per completion, yards per attempt, passing efficiency, passing touchdowns, passing yards per game and points responsibility. He had a streak of 11 straight games with at least two passing touchdowns, tied for the longest streak in AAC history, and was one of five quarterbacks in the nation with at least 11 multiple-touchdown games.

In 2018, Norvell's team boasted the fourth-best rushing attack in the nation, averaging 279.9 yards per game with a school-record 3,919 total rushing yards and 48 touchdowns on the ground. He produced the first season in Memphis history with two 1,000-yard rushers, led by Doak Walker Award finalist and unanimous All-American Darrell Henderson. Henderson broke the NCAA career record with an average of 8.22 yards per carry, and his 2018 average of 8.92 yards per carry was the highest for a season with a minimum of 200 carries in records dating back to 2000.

The 2017 team averaged 45.5 points per game, the second-highest average in the country, and ranked fourth in the NCAA with 523.1 yards per game and 7.35 yards per play. That year, Memphis forced 31 takeaways, good for third in the country, and ranked third with a turnover margin of plus-1.15 per game. The team's average of 26.02 yards per kickoff return also ranked fourth. Anthony Miller earned consensus All-America honors after leading the NCAA with 18 receiving touchdowns and ranking third in the country with 96 receptions and 1,462 yards.

GREATNESS
IS WHAT
WE DO
ACCOMPLISH GREATNESS

In his first year at the helm, Norvell immediately put his stamp on the program. Memphis ranked second in kickoff return defense, allowing only 16.04 yards per return, while boasting the nation's fifth-best kickoff return average of 26.57 yards per return. The Tigers were the only team to rank in the top-17 of both categories in 2016. Memphis also forced 29 takeaways, the fifth-highest total in the country, and ranked in the top-15 in scoring offense, averaging 38.8 points per game, and passing offense at 304.4 yards per game.

The Tigers flourished academically under Norvell as well, posting single-year APR scores of 991 in 2018-19, 988 in 2017-18 and 976 in 2016-17. Under his guidance, the football team earned its highest grade-point average in program history in the fall of 2017. Through his first three years, 55 players earned their bachelor's degree, including eight on the 2019 team.

Norvell took over at Memphis after four years as the offensive coordinator and quarterbacks coach at Arizona State. The Sun Devils averaged 38.1 points per game and scored nearly 2,000 points in his four seasons. His 2014 offense gained 5,750 yards, 3,556 of those through the air, and ranked 13th in the nation with 34 touchdown passes. The 2013 team's average of 39.7 points per game ranked 10th nationally.

Norvell spent one year as Pitt's co-offensive coordinator, wide receivers coach and director of recruiting. From 2007-10 he coached wide receivers at Tulsa, adding passing game coordinator duties in 2009 and director of recruiting responsibilities in 2010. The Golden Hurricane had five 1,000-yard receivers under Norvell's leadership, led by All-American Damaris Johnson. Johnson broke the NCAA record for career all-purpose yards with 7,796 and is one of four players in NCAA history with three seasons of at least 2,000 all-purpose yards.

Norvell was a four-year letterwinner at Central Arkansas and was inducted into the UCA Sports Hall of Fame in 2015. He broke the school record with 213 career receptions and was second on the program's all-time list with 2,611 receiving yards and an average of 4.6 catches per game. He helped lead the Bears to 33 wins in his four years, including an 11-3 mark in 2005. The next year, he began his coaching career as a graduate assistant at his alma mater.

Norvell earned two degrees from Central Arkansas, completing his bachelor's degree in social science in 2005 and his master's degree in training systems in 2007. Norvell and his wife, Maria, have a daughter, Mila.

SOUTH END ZONE

The south end zone houses the Florida State University School of Hospitality, where students in the program receive hands-on experience in various aspects of the food and beverage industry. The multi-level facility is also home to the Champions Club, which includes private entrances, food and drink service in chair-back seats, covered rooftops with cabanas, and WiFi access with panoramic views of downtown Tallahassee.

NORTH END ZONE

The north end zone consisted of wood bleachers until the 1994 season kicked off. Now, the Moore Athletic Center includes a number of amenities for Florida State's student-athletes. The offices overlooking Doak Campbell Stadium house FSU's Athletics executive staff.

NOV. 20, 2004

In a special ceremony prior to the Florida game on November 20, 2004, the home of Florida State football took on a meaning even more special when Bobby Bowden Field was dedicated. Now, with numerous additions to enhance the gameday experience, Seminole fans are treated to one of college football's greatest venues.

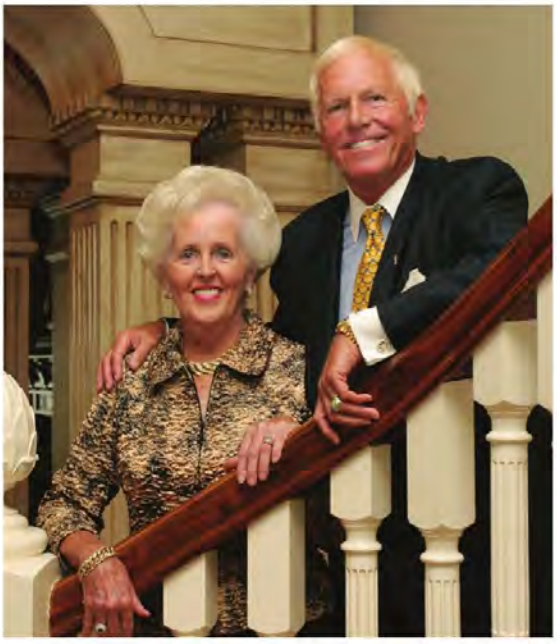
ALBERT J. DUNLAP



Long-time champions of Florida State University and the athletics department, Al and Judy Dunlap have given in excess of $40 million dollars to promote the continued success of Seminole Athletics.

The Albert J. and Judith A. Dunlap Football Center – opening for the 2025 season – will be the new home to Florida State Football. The 150,000-square-foot building will include locker rooms, a spacious weight room, athletic training and hydrotherapy areas, offices for coaches and staff, team auditoriums and position meeting rooms, player lounge and conference room, nutrition stations, recovery and rehabilitation resources, video production space, a multi-purpose area, a recruiting center and more. FSU's two outdoor fields (the Al Dunlap Football Practice Fields) outside of the facility also were updated and feature a new tower between fields for video and viewing purposes. Much of the project was funded by donations, including a $20 million lead gift by Al and Judy Dunlap.

The Albert J. Dunlap Athletic Training Facility was unveiled in 2013 and allows the Seminoles to practice year-round without disruptions from inclement weather conditions. The 92,000-square-foot facility features a 120-yard artificial turf field and connects to the brand-new Dunlap Football Center.

The Albert J. and Judith A. Dunlap Champions Club occupies the south end zone of Doak Campbell Stadium, offering outdoor seating for 3,500 fans on game day across its 4th to 6th floors. Exclusive features of the Dunlap Champions Club include private loge boxes and various unique seating experiences as well as a dedicated entrance with elevator access, air-conditioned lounge areas, complimentary catered meals and non-alcoholic beverages, private restrooms, comfortable padded stadium seating, and fully stocked bars. A new Dunlap Champions Club experience will be unveiled as part of the larger Doak Campbell Stadium renovations in 2025.

PRESIDENT McCULLOUGH

RICHARD McCULLOUGH
President

Richard McCullough became the 16th president of Florida State University in August 2021, bringing more than three decades of academic leadership experience to the role. During his tenure, he has strengthened FSU's foundation as one of the nation's top public universities by investing in student and faculty success as well as academic and research excellence.

Since assuming the presidency, McCullough has recruited world-class faculty, staff, and administrators; grown the university's research portfolio; implemented a new structure to encourage entrepreneurial endeavors among students and faculty; cultivated relationships with elected officials and community leaders; enhanced fundraising efforts; and championed athletic success.

Under McCullough's leadership, Florida State University launched FSU Health — one of the most ambitious projects in the university's history — with a goal to improve health and health care throughout the region. FSU Health was initiated by a generous $125 million investment from the Florida Legislature to build a facility in Tallahassee, representing an academic health model combining education, research, and quality clinical delivery. Additional targeted investments have been secured to establish the

Florida Institute for Pediatric Rare Diseases and Sunshine Genetics, groundbreaking initiatives that position Florida as a national leader in improving the lives of children and families affected by devastating rare diseases.

McCullough has committed to expanding FSU's impact and presence across Northwest Florida. FSU was awarded $98.4 million from the Triumph Gulf Coast Board to launch InSPIRE, a state-of-the-art facility and dynamic consortium that unites partners from industry, economic development, government, and academia to drive regional economic prosperity, provide leadership in U.S. manufacturing and aerospace, and promote national security.

McCullough also led efforts to secure record levels of support from the Florida Legislature, increase research expenditures to a record high of $461 million annually, invest more than $100 million into the emerging field of quantum science and engineering, streamline the process of moving research to the market, and broaden funding opportunities from the National Science Foundation and the State of Florida to support the FSU-headquartered National High Magnetic Field Laboratory — the largest and highest-powered magnet laboratory in the world and the only one of its kind in the United States.

He also expanded scholarships and programs for honors and first-generation students and implemented a comprehensive strategy that has led to record student retention and graduation rates that are among the best in the country, as well as student debt levels that are among the nation's lowest.

In addition, McCullough has overseen major capital projects, including the opening of the new Student Union, completion of the Interdisciplinary Research and Commercialization Building, and the construction of Legacy Hall — the new home of the College of Business and the largest academic space on the Tallahassee campus.

McCullough also was a national leader advocating significant reform in collegiate athletics, championing reforms that enhance student-athlete experiences, promote financial equity, and strengthen institutional competitiveness. He made major investments in athletics facilities, including stadium renovations and the construction of the Dunlap Football Center, and launched women's lacrosse — FSU's 21st varsity sport. During McCullough's presidency, FSU teams captured 16 conference championships and two national titles, while student-athletes across all sports achieved the highest cumulative GPA in university history.

Before joining FSU, McCullough served as vice provost for research for 10 years and professor of materials science and engineering at Harvard University. He previously spent 22 years at Carnegie Mellon University, where he began his academic career as an assistant professor of chemistry and rose through the ranks to become the Thomas Lord Professor of Chemistry. He also served as the head of chemistry, the dean of science and the university's vice president for research.

McCullough is a first-generation college student who attended Eastfield Community College and subsequently earned a bachelor's degree in chemistry from the University of Texas at Dallas and a doctoral degree in organic chemistry from Johns Hopkins University. He completed a postdoctoral fellowship at Columbia University.

He has more than 110 publications, holds 16 U.S. patents, and is an entrepreneur who started two companies. He is a fellow of the National Academy of Inventors and was inducted into the Advanced Materials Journal Hall of Fame in 2021 and the Florida Inventors Hall of Fame in 2025. He also is the recipient of the Carnegie Science Center Award for Excellence as a Start-Up Entrepreneur.

McCullough and his wife, Jai Vartikar, have two sons and three granddaughters.

BOARD OF TRUSTEES

The FSU Board of Trustees is the 13-member governing board for the University. Peter Collins is the Chair of the Board of Trustees.

The Florida State University Board of Trustees was created in 2001 and is the public body corporate of the university. It sets policy for the institution and serves as the institution's legal owner and governing board. The Board of Trustees is responsible for high quality education programs within the laws of the State of Florida and Regulations of the Florida Board of Governors. The Board of Trustees holds the institution's resources in trust and is responsible for their efficient and effective use. The thirteen member Board of Trustees is composed of six members appointed by the Governor, five members appointed by the Florida Board of Governors, the Chair of the Faculty Senate and the President of the Student Body.

MICHAEL ALFORD

As he approaches his fifth academic year as Vice President and Director of Athletics at Florida State University, Michael Alford has earned an impeccable reputation as one of the most visionary and effective leaders in collegiate athletics.

In four years of leadership of Seminole Athletics, Alford has deftly steered FSU through some of the most significant moments in its history. Through it all, he has provided dynamic leadership and transformative vision that has enabled the program to stand on firm footing as a national leader amidst the most turbulent period in the history of college sports.

MICHAEL ALFORD
Vice President & Director of Athletics

The opening of the refurbished Doak Campbell Stadium and the Dunlap Football Center and the successful settlement of issues that have bolstered FSU's relationship with the Atlantic Coast Conference stand as testimony to Alford's skilled legislative advocacy for Seminole athletics on the conference and national levels. Alford has been in the center of a multitude of challenges at an inflection point in FSU's proud athletic history.

None of it would have been possible without the unparalleled alignment of FSU leadership, reflecting the institution's confidence in Alford and his successful collaboration with FSU President Dr. Richard McCullough, FSU Board of Trustees Chairman Peter Collins, and the entire FSU community. That confidence has created valuable stability for Seminole Athletics, signified by a four-year contract extension for Alford completed in the summer of 2024.

Through it all, FSU has enjoyed a resurgence of competitive excellence across the spectrum of sports teams as Alford has helped position Seminole athletics among the nation's elite in terms of competitive excellence. Alford emerged as one of collegiate athletics' leaders while remaining true to his primary objective – an unwavering commitment to student-athlete welfare.

That commitment produced measurable results by every metric within a solution-oriented, positive culture that places the student-athlete first in all pursuits. It's evidenced, in part, by his direction of more than $500 million for projects to improve athletic facilities and fields over the last four years.

Alford is equally committed to the success of the student in the classroom resulting in the strongest consistent academic performance in athletics department history. FSU student-athletes established an all-time best cumulative grade-point average of 3.338 as a department in Spring 2025, continuing a trend of unsurpassed classroom performance over the last three years. That trend began in Fall 2022 when FSU's cumulative GPA for all student-athletes eclipsed the 3.2 mark for the first time. The trend continued with a new record GPAs every successive year. During the Fall 2024 semester, every FSU team finished the term with a GPA of 3.0 or higher and all but one squad reached that level in Spring 2025.

Alford's leadership has laid the groundwork to have FSU poised to be nationally elite in every sport. Eighteen of its 20 teams have advanced to the postseason both of the last two years with FSU finishing 12th in the 2023-24 Learfield Director's Cup standings measuring overall competitive excellence, the program's highest place since the 2018-19 academic year.

Forging immediate impact has been a consistent hallmark of Alford's versatile administrative career with a variety of championship organizations including serving as CEO and President of Seminole Boosters, Inc. in 2020-21 before he was named to his current position on December 9, 2021. Under Alford's leadership, Seminole Boosters added more than 2,000 new annual members, raised $15 million towards a new football operations center bringing the total commitments to over $55 million, and conceived and launched concepts to dramatically improve the fan experience at Doak Campbell Stadium.

Alford's tenure has featured an enhanced commitment to FSU's already significant investment in the success of both female and male athletes. In addition to onboarding a women's lacrosse team that debuts in early 2026 - and building a new stand-alone women's lacrosse stadium - the last three new competition facilities built by FSU have been for women's sports: beach volleyball, soccer, and softball. FSU also is planning a new beach volleyball competition and operations facility, which will include team building with coaches' offices, home and visitor locker rooms, a team lounge, an auxiliary training room, an equipment room, and other features.

The 2023 MLK Community Champion Award honoree by the MLK Foundation of Florida Inc. and the Civic Council of the Southern Christian Leadership Council, Alford has prioritized enhancing FSU Athletics' positive role in the community.

FSU's competitive successes are fueled by financial investments in student-athletes. That investment into female student-athletes sets the pace in the ACC and ranks among national leaders across the board. Overall budgetary support for women's teams ranks among national leaders with several women's teams leading the ACC in overall budgetary support. Florida State's longstanding commitment to women's sports was also evidenced by the beginning of the "Elevate Champions" campaign in 2023, a five-year fundraising goal intended to provide $75 million of financial support for facilities, athletic scholarships and Coaches Clubs specifically for FSU's women's teams.

Over three decades in intercollegiate athletics and professional sports, Alford has held positions with the Dallas Cowboys, the University of Alabama, the University of Oklahoma, the University of Southern California, the Cincinnati Bengals and at Central Michigan University, where he served as Associate Vice President and Director of Athletics from 2017-20.

Alford played baseball at Mississippi State before transferring to the University of Alabama-Birmingham (UAB), where he earned a bachelor's degree in communication in 1993. He received a master's degree in athletics administration from the University of Arkansas in 1995.

Alford's wife, Laura, is a former collegiate volleyball student-athlete at the University of Hawai'i and a former Division I head volleyball coach. The Alfords have three daughters: Audrey, Ashley and Anna Leigh.

FLORIDA STATE UNIVERSITY

One of the top public universities in the world, Florida State University is home to about 44,000 students, 17 colleges, and more than 15,000 faculty, staff, and other employees. The university's world-class faculty includes Pulitzer Prize winners, Guggenheim Fellows, a MacArthur Fellow, and members of the National Academy of Sciences and American Academy of Arts and Sciences. The university offers 274 undergraduate, graduate, and professional programs, including law and medicine.

Located in Tallahassee, Florida State has built a reputation as a strong research center in both the sciences and the humanities, earning the Carnegie Commission classification: "Doctoral Universities: Highest Research Activity." The university is home to celebrated programs in the fine and performing arts, a culture of entrepreneurship, championship athletic teams and an unwavering commitment to student success.

BEGINNINGS

Florida State was established as the Seminary West of the Suwannee by an act of the Florida Legislature in 1851. The institution first offered instruction at the postsecondary level in 1857 and is the longest continuous site of higher education in Florida. In 1905, the Buckman Act reorganized higher education in the state and designated the Tallahassee school as the Florida Female College. In 1909, it was renamed Florida State College for Women. In 1947, the college returned to coeducational status and became Florida State University.

INCREDIBLE GROWTH

The university has grown from an enrollment of 2,583 students in 1946 to 44,308 students in Fall 2024. Today's student body represents every county in Florida, all 50 states and the District of Columbia, and more than 130 countries.

WEALTH OF OPPORTUNITY

FSU is a comprehensive degree granting university, offering baccalaureate degrees in 98 programs, master's degrees in 102 programs, advanced master's/specialist degrees in six programs, doctorates in 64 programs, and four professional degrees. The university offers fully accredited professional programs in law (J.D.), medicine (M.D.) and nursing. The academic divisions are the Colleges of Applied Studies in Panama City; Arts and Sciences; Business; Communication and Information; Criminology and Criminal Justice; Education, Health, & Human Sciences; Engineering; Entrepreneurship; Fine Arts; Hospitality; Law; Medicine; Motion Picture Arts; Music; Nursing; Social Sciences and Public Policy; Social Work; and The Graduate School.

A FOCUS ON STUDENT SUCCESS

FSU has long prioritized student success, and the university's 96% student retention rate and 76% four-year graduation rate are among the top 10 in the nation for public universities. The university's student-focused approach helps to ensure that every FSU student, regardless of background, graduates with a degree.

WORLD-RENOWNED RESEARCH

With a rich history of successful fundamental research, FSU totaled more than $460 million in research expenditures in fiscal year 2024. The university supports leading research centers and institutes in areas from power electronics and advanced materials to reading research to improve literacy at all stages of life. FSU's interdisciplinary programs draw on notable research faculty strengths in a variety of areas, including neuroscience, molecular biophysics, computational science, materials science, and research at the National High Magnetic Field Laboratory — home to the world's most powerful magnets and the sole national laboratory in the State of Florida.

FSU HEALTH

Through a bold new initiative called FSU Health, Florida State University is aiming to build a health care ecosystem that will transform health care delivery in North Florida. FSU is advancing the initiative with the construction of an academic health center on the Tallahassee Memorial HealthCare campus, plans to build a 100-bed acute care hospital in Panama City Beach, and the development of partnerships with health systems such as Mayo Clinic and others across the region. These partnerships will help the university grow its biomedical research portfolio and attract some of the top medical and research talent from around the country to Tallahassee, resulting in a more robust health care system for the residents of North Florida.

ENTREPRENEURIAL SPIRIT

FSU fosters a culture of entrepreneurship and innovation throughout the university. The Jim Moran College of Entrepreneurship inspires and prepares students to be entrepreneurs by providing a rich curriculum in an environment that promotes entrepreneurial thinking, hands-on learning and real-life experience through business mentoring, networking, and internships. FSU's entrepreneurial environment also has led to faculty startups addressing serious challenges including ADHD, pre-term birth, food shortages and farming, and youth reading.

GLOBAL REACH

FSU is the No. 1-ranked public university for long-term study abroad enrollments. The university has year-round study centers in London, England; Florence, Italy; Panama City, Panama; and Valencia, Spain. Prestigious FSU faculty members also lead summer programs in locations across the globe. FSU is one of the nation's highest producers of Fulbright Scholars, a top national award for faculty members sponsored by the U.S. State Department, and the university has received the most prestigious award in international education from the Association for Public and Land Grant Universities.

HANDS-ON LEARNING

FSU is one of the largest universities in the country to have an experiential learning graduation requirement for its undergraduates. Before graduating, students engage in at least one transformational, career-building internship, undergraduate research experience, international study, service-learning, or other engaged learning program. The university is located four blocks from the state Capitol, which affords students opportunities for employment or internships with legislators and state agencies.

The word Micco in the Seminole language means Chief or Leader, thus it is appropriate that our most distinguished giving society bears that name. This society recognizes those top individuals who have given over one million dollars in charitable giving, usually in the form of a singular gift. Serving as the most inner circle, Micco Society members join in the shared vision of providing the best academic and athletic opportunities for Florida State Athletics.

BOWDEN SOCIETY

The Bowden Society recognizes individuals who make commitments of $50,000 or more payable over five years. Bowden Society gifts focus on funding new athletic facility construction, the enhancement of current athletic facilities, as well as contributing to the endowment fund, and are separate from annual fund donations and seat related requirements. Although the Bowden Society is named in honor of our legendary football coach, Bobby Bowden, this Society will help fund facilities and scholarships for all 21 varsity sports. Just as Bobby Bowden transformed Florida State Athletics, gifts to the Bowden Society will ensure competitive excellence now and in the future.
